Tsuda, E, 349-372
Turksen, IB, 223-250
Valtorta, M, 123-148
Yamakawa, T, 189
Yamashita, H, 349-372

A,α-conditionalization, 149-181
Adaptive control, 505-519
Air-conditioning system, fuzzy control for, 331-348
Air-handling unit, air-conditioning system and, 331-348
Analogy, reasoning by, 373-398
Approximate reasoning
  imprecise linguistic information and, 463-488
  inventory capacity planning and, 223-250
  necessity-possibility measures and, 399-413
Artificial intelligence, Bayesian belief networks, 521-542
Automated reasoning, 463-488
Axioms for local computation of marginals, 149-181
Bayesian methods, 521-542
Belief functions, constraint systems and, 433-461
Belief networks
  combination algorithms for, 521-542
  NCFs and, 489-504
Belief revision, Spohn's theory of, 489-504
Certainty factors, necessity-possibility measures vs., 399-413
Cognition analysis, fuzzy graphs and, 349-372
Color printing, 213-222
Concrete computational complexity, 123-148
Conditional functions, graphoids and natural, 489-504
Constraint propagation, belief functions and, 433-461
D-clause, 415-432
Decomposition scheme, 415-432
Decomposition tree, 415-432
Dempster's rule of combination, belief functions and, 433-461
Disbelief function
  rule of combination for, 149-181
  rule of subtraction for, 149-181
Epistemic state
  consistent, 149-181
  content of, 149-181
ϵ-equivalence, fuzzy acceptors and, 291-306
ϵ-reduction by inputs, 291-306
Error possibility, reliability and, 265-280
Expectation-based perception, 89-121
Expert systems
  Bayesian belief networks, 521-542
  imprecision in, 1-25
  inventory capacity planning and, 223-250
  NAL, 505-519
  reasoning system with imprecise linguistic information, 463-488
  rule bases and, 123-148
Failure possibility, reliability and, 265-280
Fuzzy acceptors
  syntactic pattern recognition and, 291-306
Fuzzy classification, 463-488
Fuzzy control, nonlinear systems and, 281-290
Fuzzy data models, analogical reasoning and, 373-398
Fuzzy graphs, instruction and cognition analysis applying, 349-372
Fuzzy inference engine, 331-348
Fuzzy inference, 463-488
Fuzzy integral, color images and, 213-222
Fuzzy logic
  NAL program, 505-519
  pattern recognition principles and, 251-264
  qualitative reasoning and, 307-331
  semantics of, 45-88
Fuzzy measures, color images and, 213-222
Fuzzy production rules, 331-348
Fuzzy reasoning
  NN-driven, 191-212
  reliability and, 265-280
Fuzzy sets, 331-348
Fuzzy systems, 281-290
Fuzzy theory, necessity-possibility measures and, 399-413
Generalized modus ponens, 45-88
Gentzen system, 415-432
Graphoids, natural conditional functions and, 489-504
Herbrand model, 415-432
Herbrand universe, 415-432
Imprecise information, 463-488
Influence diagrams, 489-504
Instruction programs, fuzzy graphs and, 349-372
Inventory capacity planning, expert system prototype for, 223-250
Judgement ratio, inconsistency in, 1-25
Knowledge acquisition, 123-148, 223-250
Knowledge base refinement, 123-148
λ-conditionalization, 149-181
Landmark discovery and tracking, 89-121
Linguistic information, imprecise, 463-488
Linguistic variables, 463-488
Logic programming, NAL, 505-519
Man-machine interface, analogical reasoning and, 373-398
Man-machine system, reliability and, 265-280

Membership functions
fuzzy control for an air-conditioning system and, 331-348
fuzzy reasoning and, 191-212
Modal logics, 45-87
Natural language reasoning, 463-488
Neural network
fuzzy reasoning and, 191-212
pattern recognition and, 251-264
Nonclassical logics, 463-488
Nonlinear systems, fuzzy approach to control of, 281-290
Nonmonotonic reasoning, 489-504
NP-completeness, 123-148
Null queries, analogy and, 373-398
Pattern recognition
fuzzy logic and, 251-264
syntactic, 291
Perception logic, 415-432
pH control, NAH and, 505-519
Possibilities, probabilities and reasoning about, 27-43
Possibility theory, uncertainty and, 399-413
Possible worlds, 45-88
Probabilistic reasoning, belief networks and, 521-542
Probabilities, reasoning under uncertainty and, 27-43
Process control, 505-519
Qualitative reasoning, fuzzy logic and, 307-331
Quantitative theories, reasoning under uncertainty and, 27-43
Query processing, 373-398
Reasoning under uncertainty
belief functions and, 433-461
combination algorithms for belief networks, 521-542
probabilistic and symbolic approaches and, 27-43
Reliability, 265-280
Resolution system, 415-432
Robot navigation, 89-121
Robot, mobile, spatial uncertainty management for, 89-121
Semanitics, fuzzy logic, 45-88
Simulation experiments, 223-250
Spatial reasoning, approximate, 307-331
Spatial uncertainty, mobile robot and, 89-121
Spohn's rules
belief function in, 149-181
belief revision in, 149-181
Spohn's theory, 149-181
Spohnian belief function, 149-181
Statistical distribution, 1-25
Structure identification, color images and, 213-222
Subjective evaluation, color images and, 213-222
Symbolic computation, 251-264
Symbolic/qualitative theories, reasoning under uncertainty and, 27-43
Syntactic pattern recognition, fuzzy acceptors for, 291-306
Temporal reasoning, 433-461
Theory revision, 123-148
Uncertain reasoning systems. *See* Reasoning under uncertainty
Uncertainty, expert system management of, 399-413
Uncertainty evaluation, 1-25
